EDUCATION

University of California, San Diego

La Jolla, CA

Master of Science, Quantitative Finance (MQF); GPA: 4.00

Honors: Beta Gamma Sigma International Business Honor Society, awarded for outstanding academic achievement in business

2024

Tsinghua University

Beijing, China

Bachelor of Science, Economics; GPA: 3.69

2023

EXPERIENCE

HiRey AI

Remote, USA

Product Lead

07/2025 – 06/2026

- **User Acquisition & Attribution Analytics:** Scaled multi-channel paid acquisition to ~15,000 users at ~\$3 CPL and sub-\$1 CPM; analyzed campaign, creative, and channel performance across Meta, Google, Reddit, X, GA4/GTM, and platform pixels to guide budget allocation and growth strategy.
- **Attribution & Performance Measurement:** Built MMP-style attribution logic connecting ad spend, source/campaign data, lead events, activation, and retention; applied last-click, click-through/view-through window, cohort, CAC/LTV/ROAS, and SKAN-aware measurement concepts, with working knowledge of AppsFlyer, Adjust, Branch, and Singular.
- **User Research & Pain Point Analysis:** Analyzed large user and event datasets using SQL/BigQuery and visualization tools, then combined quantitative findings with key-user conversations to identify drop-offs, user pain points, and product/friction points across acquisition, activation, and retention.
- **Data Pipeline, Dashboards & Experimentation:** Built an end-to-end data collection pipeline across GA4, GTM, ad platforms, CRM, landing pages, and internal data sources; created Looker Studio dashboards for funnel, cohort, and retention reporting, and designed A/B tests for creative, messaging, and funnel improvements.

Data Analyst

01/2025 – 07/2025

- **CRM, SQL & ETL Analytics:** Owned HubSpot CRM and built SQL-based ETL workflows, deal-stage funnel models, cohort tables, and lead-conversion dashboards as the founding data hire; standardized tracking taxonomy, validation queries, and reporting processes, supporting promotion to Product Lead.

Capital Group

Los Angeles, CA

Quantitative Researcher

09/2024 – 12/2024

- **Financial Econometrics & Statistical Inference:** Built an econometric and machine learning framework to test lead-lag relationships between CDS spreads and equity prices, applying Granger causality, vector autoregression (VAR), stationarity testing, and hypothesis-driven statistical inference.
- **Time-Series & ML Modeling:** Engineered five years of CDS, equity, and macroeconomic time-series data in Python; applied ADF tests, differencing, lag selection, model validation, and feature-importance analysis to surface statistically meaningful predictive signals.

UC San Diego

La Jolla, CA

Teaching Assistant

10/2024 – 12/2024

- **Graduate Instruction:** Supported graduate-level M&A and Corporate Finance coursework for 40+ students based on strong academic performance; led weekly office hours, graded case analyses, contributed to exam development, and helped students translate complex valuation and deal-structure concepts into case-based applications.

ByteDance

Beijing, China

Sales Operations & CRM Automation Intern

03/2022 – 07/2022

- **Contract Automation:** Built contract-generation automation for the Lark/Feishu sales org using HTML templates and Word VBA macros, reducing manual turnaround time.
- **Salesforce / CRM Engineering:** Managed Salesforce data and developed back-end CRM modules for data-integrity workflows and low-code process automation.
- **UAT & Optimization:** Led UAT across Feishu's 100+ product database, surfacing defects and driving launch-readiness improvements with CRM PMs.
- **Cross-Functional Requirements:** Gathered CRM requirements and streamlined workflows across sales, legal, finance, and engineering teams.

SKILLS

- **Game, UA & Attribution Analytics:** User acquisition diagnostics; multi-channel UA (Meta, Google, Reddit, X); MMP concepts (AppsFlyer, Adjust, Branch, Singular); attribution windows, last-click, view-through/click-through, SKAN-aware measurement; CAC, LTV, ROAS, retention.
- **Analytics, BI & Data Pipelines:** SQL/BigQuery, Python, R; end-to-end data collection pipelines; GA4, GTM, platform pixels; Looker Studio, Tableau dashboards; funnel/cohort/retention modeling; data quality checks and validation queries.
- **Languages:** English (fluent), Mandarin (native), Japanese (intermediate, N2).
